DECREES AS FOLLOWS

ARTICLE 1 - ESTABLISHMENT

The research doctoral program set out in the specific sheet annexed hereto, which is an integral part hereof, is hereby established at Luiss Guido Carli for the 2020/2021 academic year, XXXVI cycle, and likewise the specific competition for admission thereto.

The specific sheet for the program (see Annex A) sets out the educational goals, research themes, the method and criteria for selecting candidates for the purposes of establishing a ranking order. The sheet also indicates the number of places on offer, with and without scholarships, that will be awarded on the basis of the ranking and the scholarships, if any, tied to undertaking certain research in accordance with particular agreements.

Any additions or changes to what is set out herein and in the Annex A will be published on the University’s website http://www.luiss.it.

Pursuant to MIUR Decree No. 45 of 8 February 2013 the doctoral program will be commenced solely upon receipt of a positive opinion from the National Agency for the Evaluation of Universities and Research Institutes (ANVUR) on fulfillment of the requirements for ministerial accreditation. Therefore, the places on offer and the scholarships will be awarded only in the event of a positive outcome to such evaluation.

ARTICLE 2 - ELIGIBILITY

Applications to participate in the competition for admission to the doctoral programs referred to in article 1 may be submitted by individuals holding a Master's Degree, a Specialized degree or an Italian Degree under the former university system or an analogous academic qualification awarded abroad that is officially recognized in advance by the academic authorities if not already deemed to be officially equivalent. In order to obtain that recognition a candidate who holds an academic qualification awarded abroad not already deemed to be officially equivalent must accompany his or her application with whatever documents are necessary to enable the Admissions Commission – consistent with the rules in force in Italy and the country where the qualification was granted and the international treaties or agreements governing the recognition
of qualifications for further education purposes – to assess the qualification solely for doctoral program eligibility purposes. The qualifications must be accompanied by all of the documentation specified in article 3 that is necessary to assess them.

**Also individuals who will be awarded the above mentioned qualification by and no later than 31 July 2020 may apply.**

In the case of a candidate who applies for admission as he/she has not obtained the qualification yet, the candidature will be accepted "with reserve" and the candidate will be required to submit a certification of the qualification achieved (or a self-certification, pursuant to Presidential Decree of 28 December 2000, No. 445) by 31 July 2020, under penalty of forfeiture.

It is further specified that all candidates who submit self-certification under Presidential Decree No. 445 of 28 December 2000 will be admitted to participate in the competition subject to verification of the self-certified statements and that the University may at any time during the process, including after commencement of the doctoral program, check the veracity of the statements submitted.

In the event of a false statement, the University may order – by a reasoned decision of the Rector – that the candidate be removed from the competition or the doctoral program without prejudice to the ensuing criminal implications for the candidate.

**ARTICLE 3 – ADMISSION APPLICATIONS**

The application for admission must be submitted exclusively online by the deadline set out in this call for application and recalled in the relevant specific Annex A hereto. Candidates are responsible for the information that will be input into the online form and the validity of the certification/self-certification submitted. In this regard the candidates are required to view the Code of Ethics of the University at the following link https://www.luiss.edu/sites/www.luiss.it/files/Codice-Etico_%20eng-CdA-21-10-2015.pdf with specific reference to points C.1.1. e C.1.2.

The online procedure is to be completed through accessing the University’s website at the address specified in the relevant Annex A. Once the procedure for submitting the application has been completed, the candidate will receive
a print-out thereof as proof of successful completion of the procedure. The application is to be considered for all statutory purposes as self-certification of the candidate’s personal details and qualifications declared except for publications.

Each candidate may apply for admission to more than one doctoral program.

In order to apply, according to the PhD program of interest, each candidate is expected to submit a proof of being in possession of a Master’s Degree, a Specialized Degree or an Italian Degree under the former university system or an analogous academic qualification awarded abroad, along with all the documents required in the specific annex A hereto.

In this regard it is specified that:

Candidates with a qualification awarded in Italy must submit:

4. Translation into Italian or English of the two documents indicated in the preceding points 1 and 2: the translations are not required if the documents in question are issued by the institution directly in English.

Candidates with a qualification awarded in a non-EU country must submit the following:
A. Degree parchment in its original language;
B. Academic transcript in its original language;
C. Translation into Italian or English of the two documents indicated in the preceding points A and B: the translations are not required if the documents in question are issued by the institution directly in English.

For qualifications awarded in a non-EU country the admitted candidates may submit a statement of comparability of the foreign qualification issued by the Information Centre on Academic

Luiss reserves the right to check the documentation submitted by candidates. **ARTICLE 5 – COMPARATIVE EVALUATION, ADMISSIONS COMMISSION AND ITS DUTIES**

The comparative evaluation for admission to each program is based on what is set out in the relevant specific Annex A hereto.

The Admission Commission that comparatively evaluates the candidates is appointed by decree of the Rector of Luiss Guido Carli subject to consulting with the Academic Board (Collegio dei Docenti) and is made up of at least three members: professors, including foreigners, or acknowledged experts in the subject. In any event, there must be more professors than experts on the Admission Commission.
Once the competition exam has been completed, the Admission Commission ranks the candidates based on the sum of the points awarded to each one.

In the event of a tie between candidates as regards their overall score, the following select criteria shall be used to establish the ranking order for admission and scholarship purposes:

a) in the event of a tie, the points awarded to the Phase 1 of the selection procedure (see Annex A)
b) in the event of a further tie, the points awarded to the Phase 2 of the selection procedure (see Annex A)
c) in the event of yet a further tie, the assessment of economic situation as determined in accordance with Prime Ministerial Decree of 30 April 1997 as amended will be the deciding factor.

Notice of admission to the doctoral program will be given by e-mail (to the address stated in the application form) no later than the date specified in the relevant Annex A hereto, by which date the ranking order and list of those admitted will be published also on Luiss Guido Carli’s website at http://www.luiss.it.

Individuals who have declared that they will be awarded their qualification by and no later than 31 July 2020 and individuals who have a qualification subject to a verification process, following art. n. 2 of this Call for application, will be admitted "with reserve".

ARTICLE 6 – ADMISSION TO THE PROGRAM

Candidates will be admitted to the doctoral programs in ranking order until all places on offer are filled.

In the event that one of the successful candidates fails to accept the place or does not accept it in time, pursuant to art. n° 7 of this call for application, that place will be awarded to the highest ranking eligible candidate from among those not originally admitted.
ARTICLE 7 – ENROLMENT APPLICATION

By the peremptory deadline of 7 days, counting from the day after publication of the ranking on the University's website (http://www.luiss.it) and the associated concurrent notice of admission, admitted candidates must communicate by e-mail (dottorati@luiss.it) their intention to enroll in the doctoral program, failing which they will be excluded.

Moreover, by the deadline that will be communicated in the notice of admission, admitted candidates must also submit or send by post (the postmark will serve as proof) an application for enrolment in the doctoral program (using the form for such purposes that will be e-mailed to them) and associated attachments, if any, to the Tutoring and PhD, Luiss Guido Carli, Viale Romania 32, 00197 Rome, failing which they will be excluded.

Should any successful candidates expressly or impliedly forgo admission prior to the start of the program, their place shall be awarded to the highest ranking eligible candidates from among those not originally admitted until the relevant places have been filled.

The enrolment application must be accompanied by a statement that the candidate is/is not a public sector employee or, if so employed, that the candidate has requested unpaid leave commencing from the commencement date of the doctoral program and for the entire duration thereof (in the absence of documentation evidencing that situation the candidate will have to forgo the scholarship, if any, for the program). Certification of the obtaining of leave must be delivered by and no later than the date of commencement of the program.

With reference to what is stated in this article, during enrolment in the program timely notice must be given of any change in what was declared at the time of submission of the enrolment application.

ARTICLE 8 – NUMBER OF PLACES ON OFFER AND SCHOLARSHIPS

The places on offer are those indicated in the corresponding Annex A hereto.

Details of any other scholarship conferment, including as a result of renounce of candidates admitted to the programs, will be communicated in a timely manner.

In particular, should a winner with scholarship accept admission to the program but not the grant, the next highest ranking eligible candidate will be awarded the place with the scholarship.
Scholarships shall be initially awarded for one year and will be renewed on condition that the candidate has completed the schedule of activities envisaged for the previous year as checked in accordance with the procedures laid down for the doctoral program. Those checks must be passed also to keep the scholarships in subsequent years.

The amount of each single scholarship, to be disbursed in monthly installments, is determined in accordance with Ministerial Decree of 18 June 2008 as amended. For 2019 the amount of each scholarship is set by Ministerial Decree No. 40 of 25 January 2018 and is worth €15,343.28 subject to payment by recipients of their own share of the relevant social security contributions due.

The amount of the scholarship shall be increased by a maximum of 50% for a total period not exceeding 18 months if the doctoral student is authorized by the Academic Board to conduct research abroad. An amount equal to 50% of a scholarship may be used also by those who do not actually hold a scholarship if they are authorized by the Academic Board to conduct research abroad and for a total period not exceeding 18 months. That increase may not be used for periods shorter than one continuous month in the doctoral student’s country of birth, citizenship, residence or domicile.

Commencing from the second year, each doctoral student shall be guaranteed, in addition to the scholarship and within the context of the University’s existing financial resources, a budget for research in Italy and abroad that is adequate for the type of program and in any event that is not less than 10% of the amount of the scholarship. Such an amount is guaranteed to doctoral students with or without scholarships.

Winners with a scholarship must join the so-called ‘INPS Gestione Separata’ State-run pension fund and e-mail Luiss (dottorati@luiss.it) evidence of their registration in that regard. Scholarships are subject to the social security contributions payable to the said pension fund in accordance with applicable law, two thirds of which is borne by the University and one third by the scholarship holders themselves. Doctoral students enjoy the associated benefits and rights.

Scholarships awarded for doctoral programs are not cumulable with other scholarships of any type, including those awarded by other universities/bodies. Moreover, they are incompatible with being an employee or research and study contributions awarded by Luiss Guido Carli departments or other institutions.
ARTICLE 9 – RIGHTS AND OBLIGATIONS OF DOCTORAL STUDENTS

Admission to a doctoral program entails an exclusive and full-time commitment in line with what is specified in the syllabus of the doctoral program, without prejudice to the special rules that may be made for the doctoral programs organized under article 16 of the Research Doctorate Regulations of Luiss Guido Carli. Carrying on a continuous paid employment, other than professional practice or scientific research activities, will implicate the scholarship’s forfeiture and the expulsion from the PhD program.

Enrolled students must attend doctoral courses and activities and continuously undertake study and research within the context of the facilities intended for such purposes and in the manner established by the Academic Board.

As an integral part of their training doctoral students may undertake tutoring of those studying for bachelor’s and master’s degrees and also additional teaching of up to forty hours per academic year, subject to clearance from the Academic Board and without such entailing an increase in their scholarship. That limit is repealed for the third year of doctoral programs.

At the end of every year of study each student enrolled in the doctoral program must submit a detailed report to the Academic Board on the work and research done. The Academic Board will keep the report and, subject to a positive evaluation of the efforts and work of the doctoral student, will propose to the Rector that the student be allowed to continue his or her studies. In the event of a negative evaluation, the recommendation will be that the doctoral student ceases his or her studies.

Doctoral students may be suspended or expelled from the program further to a unanimous decision of the Academic Board stating the reasons therefor.

For public sector employees admitted to doctoral programs the provisions of article 19 of the Research Doctorate Regulations of Luiss Guido Carli apply.

The measures under Legislative Decree No. 68 of 29 March 2012 are extended to doctoral students in the manner provided for therein.

ARTICLE 10 – AWARDING OF THE DOCTORATE

The qualification of research doctorate is attained at the end of the doctoral program and is awarded following positive assessment of a research thesis that contributes to the advancement of knowledge or methodology in the chosen field of inquiry after defense of a doctoral thesis. The research doctorate is conferred by the Rector in accordance with the Research Doctorate Regulations of Luiss Guido Carli and applicable law.

The examinations commission for the final exam will be established and appointed by decree of the Rector in accordance with the Research Doctorate Regulations of Luiss Guido Carli and applicable law.

The doctoral student must deliver a soft copy of the final version of the PhD thesis along with a detailed report of the activities performed during the Doctoral Program, as indicated in art. 8 of D.M. of the 8th of February 2013.

The PhD certificate will be issued solely if within 30 days after defense of the thesis the doctoral student (with the assistance of the relevant staff) files a copy of the final version of the thesis in the University's open access institutional repository, which stores the work and affords public access thereto. The University will arrange for the thesis to be filed with a special purpose ministerial database and the national libraries in Rome and Florence as required by law.
